Families

Your family is important to you. A beautiful, professional portrait of them nicely displayed in your home, expresses the love you feel for each other. From start to finish, we will help you with all the details to create a portrait you'll be proud of.

Children

Children's photography doesn't have to involve hours of waiting only to be rushed through like an assembly line. At Portraits by Tiffany, we provide high quality, unique children's portraits in a relaxed, fun atmosphere. There are no lines, every appointment is individually scheduled for a time when your child is at their best. We allow at least an hour for your appointment so we can take the time to work with your child or children to get the best expressions possible. We also offer lots of creative options the chain stores can't, like black and white, outdoor portraits on location, and special creative sets just for kids!

Pets

Is your pet a part of your family? Ours is! And as a part of your family it only makes sense that you would like to include them in your portraits. Or why not have individual portraits made of just your pet?

At Portraits by Tiffany we welcome pets!
